EDUCATION

University of California, San Diego

Bachelor of Science, Business Economics

GPA: 3.8 | Provost Honors

Relevant Coursework: Corporate Finance, Financial Accounting, Econometrics, Financial Markets, Options, Business Strategy, Intermediate Micro/Macroeconomics, Behavioral Economics

La Jolla, CA

June 2026

Moorpark College

Associate in Arts for Transfer, Economics (AA-T) Dean's List (4 Terms)

Moorpark, CA

Aug 2022–May 2024

WORK EXPERIENCE

Research Associate

University of California, San Diego - Department of Economics

La Jolla, CA

Jun 2025–Present

- Selected from competitive RA cohort to transition into independent empirical research role; now work directly 1-on-1 with PhD researcher on institutional investor behavior and 401(k) revenue-sharing incentives.
- Reconstructed full 7-step legacy Stata empirical workflow (2007-2014 sample) in Python with full methodological verification across 5M+ observations, achieving exact dataset matches at every pipeline stage and enabling extension of CRSP-Form 5500 panel beyond 2014.
- Designed and built multi-level plan-fund panel dataset linking DOL Form 5500 filings (Schedule C & H) with CRSP mutual fund data (2M+ observations; 360K+ plan-fund records across 828 retirement plans).
- Replicated logit regressions with high-dimensional plan and fund fixed effects, clustered standard errors, and rare binary outcomes achieving near-identical results to published Stata estimates across all specifications.
- Contributed to empirical analysis demonstrating revenue-sharing funds are significantly less likely to be deleted from 401(k) menus in revenue-sharing plans (logit coefficient ≈ -0.25 , $p < 0.01$), robust across no FE, fund FE, and plan FE specifications.
- Research focus: institutional incentives, fee structures, and capital allocation distortions in retirement markets.

Lifeguard & Swim Instructor

Conejo Recreation and Park District

Thousand Oaks, CA

Jun 2019–Sep 2023

- Instructed and supervised swimmers of all ages; taught adaptive lessons for special needs individuals and provided free instruction to underserved youth through Safe Passage Program.

ACADEMIC PROJECTS

Equity Valuation Research Project

University of California, San Diego - Rady School of Management

La Jolla, CA

May 2025

- Built DCF/EV-EBITDA valuation models with peer comps (Ford, Ferrari); forecasted financials through 2032.
- Conducted sensitivity analysis on revenue growth, cost structure, and R&D to evaluate valuation drivers.

Behavioral Economics Research Project

University of California, San Diego - Rady School of Management

La Jolla, CA

Feb 2025

- Collected and evaluated behavioral data using Stata to identify trends in decision-making, trust, & engagement using different visual treatments.
- Applied regression analysis to examine impact of perceived credibility on consumer behavior, insights applicable to client communication and financial marketing.

ACTIVITIES

Club Water Polo Athlete, Club Tennis

University of California, San Diego

La Jolla, CA

Sept 2024–June 2026

ADDITIONAL INFORMATION

Technical Skills: Claude, Python (pandas, NumPy), Stata, R, SQL, Excel (financial modeling, PivotTables, VLOOKUP), Econometrics (panel regression, fixed effects, clustered SEs), large-scale financial data processing

Interests: Valuation strategy, capital markets, classical violin, watch collecting
